

DESCRIPTION AMENDMENTS

Rewrite the paragraph beginning on page 1, line 6, to read as follows:

The invention relates to an arrangement for guiding the deadlocking of a latch bolt in a door lock ~~in accordance with the preamble of claim 1.~~

Rewrite the paragraph beginning on page 2, line 5 to read as follows:

~~The object of the present invention may be achieved in a way described in claim 1 and in the other claims.~~ According to the invention the arrangement includes members which are arranged so as to allow the moving of a guide element to a position providing the deadlocking of the latch bolt only in case both the auxiliary bolt and the latch bolt are first moved to their retracted positions. Thus the pressing of the auxiliary bolt in is not alone enough for activating the deadlocking of the latch bolt, but it will take place only after the door has been pushed to its closed position and both the latch bolt and the auxiliary bolt are retracted into the lock case urged by the door frame.
